

(A)

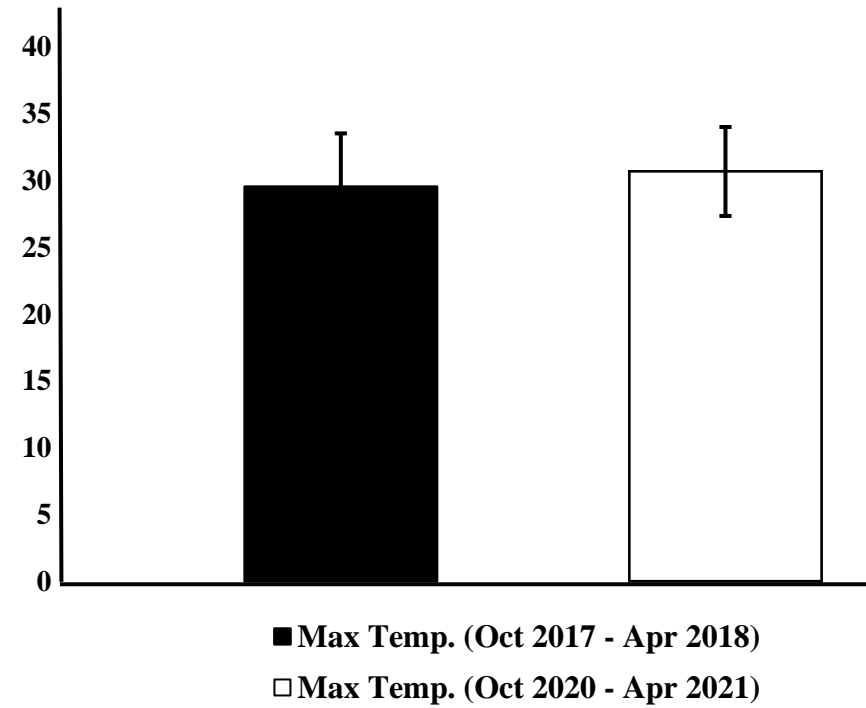

Minimum temperature (Average  $\pm$  S.D) observed in both vintages. No significant difference was observed ( $p > .05$ )

**(B)**

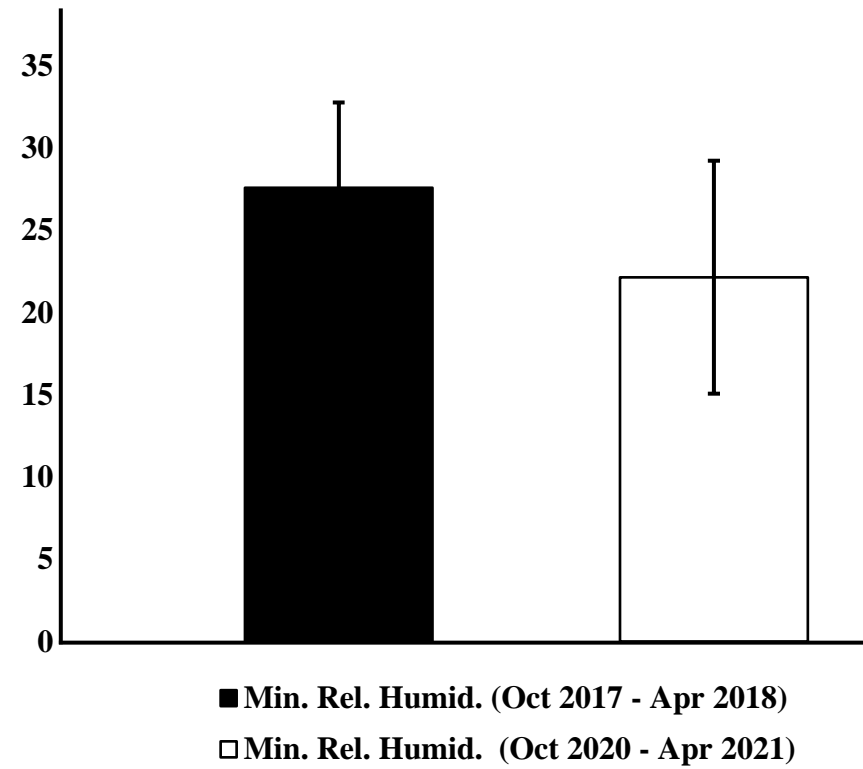

Average temperature (Average  $\pm$  S.D) observed in both vintages.  
No significant difference was observed ( $p > .05$ )

(C)

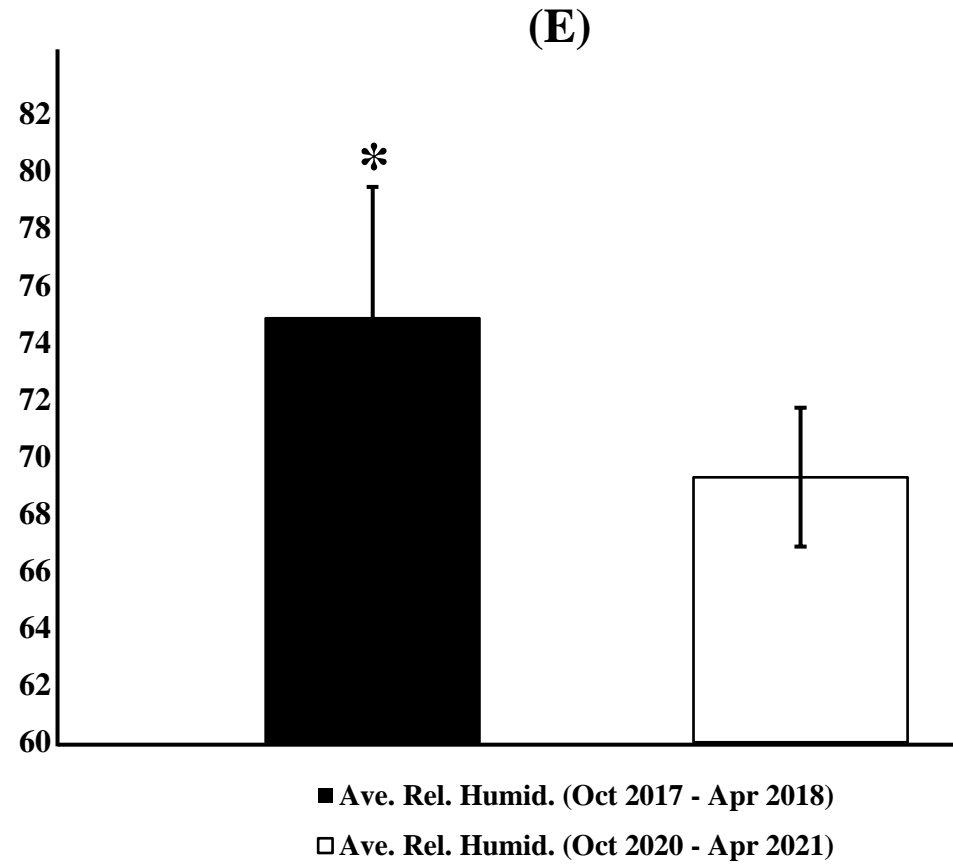

Maximum temperature (Average  $\pm$  S.D) observed in both vintages. No significant difference was reported ( $p > .05$ )

**(D)**

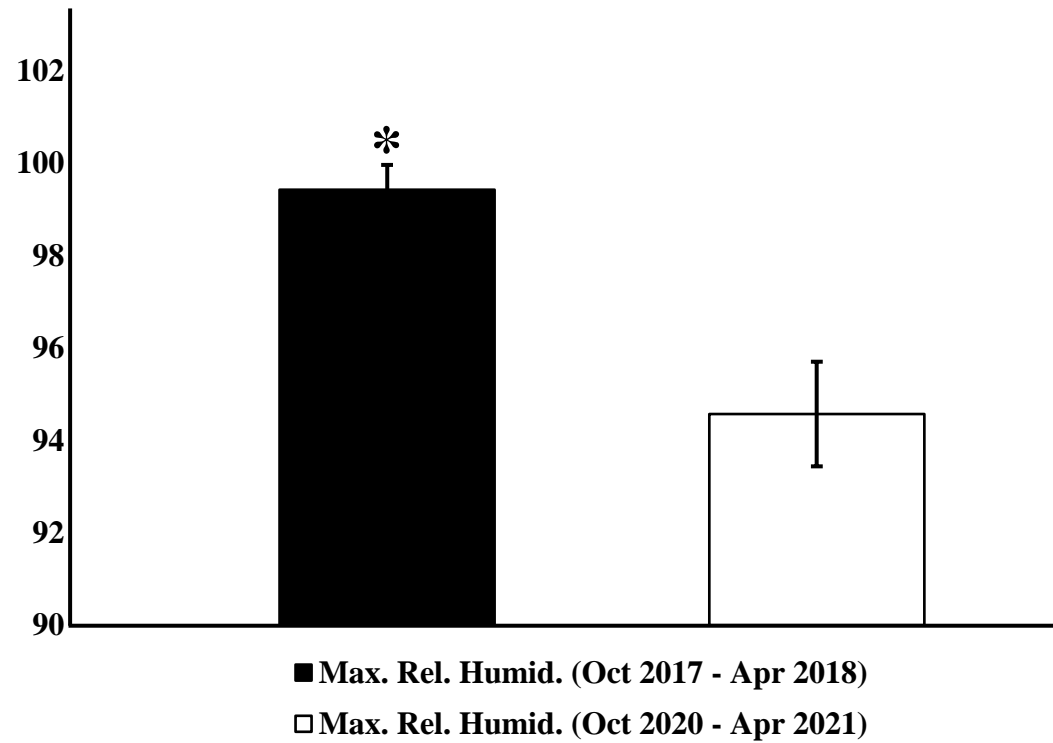

Minimum relative humidity (Average  $\pm$  S.D) observed in both vintages. No significant difference was observed ( $p > .05$ )

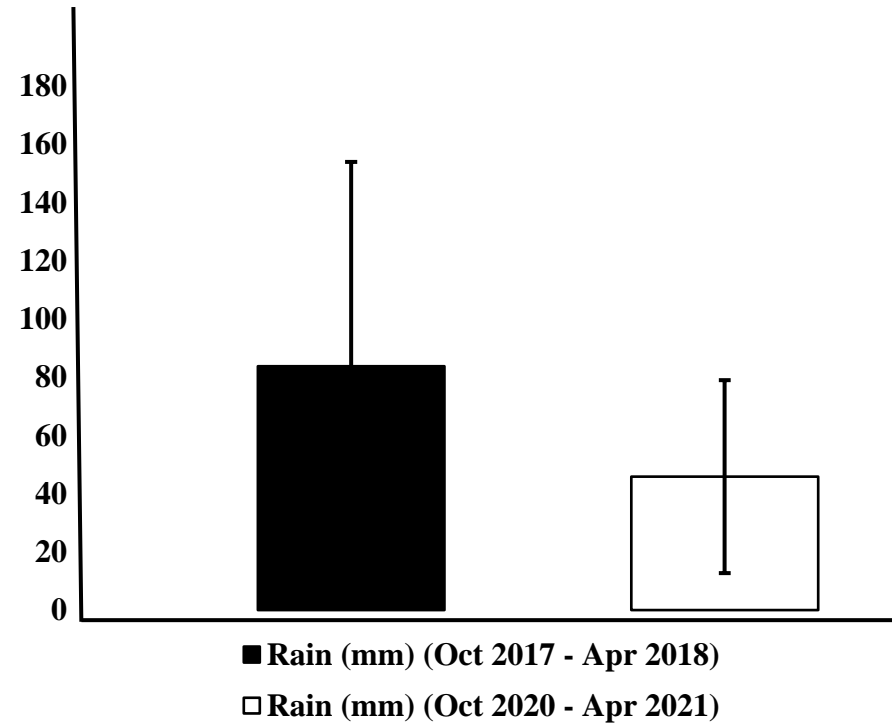

Average relative humidity (Average  $\pm$  S.D) observed in both vintages.  
Significant difference observed ( $p = .02503$ )

(F)

Maximum relative humidity (Average  $\pm$  S.D). Significant difference observed ( $p = .001732$  )

(G)

Rain (Average  $\pm$  S.D) observed in both vintages. No significant difference was reported ( $p > .05$ )
